

Purpose: KCI and WSU OVPR have allocated \$60,000 to support research projects which require the use of the Basic Science Core Cluster (Animal Model and Therapeutics Evaluation, Proteomics, or Microscopy, Imaging and Cytometry Resources).

Application, Review, and Award: Applications should be submitted to researchadmin@karmanos.org. Applications will be accepted on an ongoing basis and are open to all WSU faculty. Completed applications will be reviewed on June 15, 2014, October 15, 2014 and Feb. 15, 2015. Applications received after these dates will be reviewed on the next scheduled date. The applications will be reviewed by a sub-committee of the Basic Science Core Cluster Advisory Committee for scientific merit and prioritization. Funding decisions will be made within 1 month of the review date. Applicants are required to develop the proposed project and budget with the respective Core Director to ensure all resources are available to complete the proposed request **at least 2 weeks** before submitting applications. The applicant can request up to \$2,500 for one project. The funds will be awarded to the Core where the required services are performed. **Any funds remaining after 6 months will be returned to the Institute.**

The full application will consist of this completed form with a quote from the Core as described in the "Budget" section. Funds can be requested for any service offered by the Cores. Preference will be given for the following attributes:

- Critical data for a manuscript.
- Critical data for a grant application.
- Utilization of a new instrument, technology or procedure that is being developed by the Core.
- The Investigator is a new user of the Core or new to a particular service of the Core.
