

[Camille Dreyfus Teacher-Scholar Award](#)

The Camille Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences. Based on institutional nominations, the program provides discretionary funding to faculty at an early stage in their careers. Criteria for selection include an independent body of scholarship attained within the first five years of their appointment as independent researchers, and a demonstrated commitment to education, signaling the promise of continuing outstanding contributions to both research and teaching. The Camille Dreyfus Teacher-Scholar Awards Program provides an unrestricted research grant of \$75,000.

Eligibility

The Camille Dreyfus Teacher-Scholar Awards Program is open to academic institutions in the States, Districts, and Territories of the United States of America that grant a bachelor's or higher degree in the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Nominees must hold a full-time tenure-track academic appointment, and are normally expected to have been appointed no earlier than mid-year 2009. Awardees are from Ph.D. granting departments in which scholarly research is a principal activity. Undergraduate education is an important component of the nominee's activities. Institutions may submit only one Camille Dreyfus nomination annually.

Selection

The Foundation seeks Camille Dreyfus Teacher-Scholars who demonstrate leadership in research and education. Nominations must provide compelling evidence of the advance of important knowledge in the chemical sciences by the nominee. Further, the nomination should describe dedication and contributions to education in the chemical sciences, particularly with respect to undergraduates.

Recommendations for awards are based primarily on the nominee's scholarly research achievements as an independent faculty member, as assessed by the Foundation's reviewers and the judgment of the nominee's peers exemplified by letters of recommendation. Other considered factors are: awards and honors, publication of research achievements in leading journals, and success in attracting funding of research. Nominations are reviewed by distinguished faculty in the chemical sciences. [Current Camille Dreyfus Teacher-Scholars](#).

Budget

The Camille Dreyfus Teacher-Scholar Award provides a \$75,000 unrestricted research grant. Of the total amount, \$7,500 is for departmental expenses associated with research and education. Charges associated with indirect costs or institutional overhead are not allowed. Defrayal of academic-year salary is not permitted. Funds are normally expended over a period of five years. Foundation approval is not required for budgetary changes after an award is made. If the awardee leaves the institution, the transfer of the remaining funds requires prior Foundation approval.
