Risk Category Determinations (Full Board Review)

Reviewer must provide a protocol specific examples to justify the selected risk level. If children are enrolled, examples are required to justify that the conditions are met.

Level 1 Research not involving greater than minimal risk.

Level 1 Risk Justification:

If a minimal risk study remains as full board submission, please provide justification to remain as a full board study:

Level 2 Research involving greater than minimal risk but presenting the prospect of direct benefit to the participant.

IF CHILDREN ARE ENROLLED: All 3 of the following conditions must be met *for children* in order to qualify for risk Category 2:

- The risk is justified by the anticipated benefit to the subjects;
- The relation of the anticipated benefit to the risk is at least as favorable to the subjects as that presented by available alternative approaches; and
- Adequate provisions are made for soliciting the assent of the children and permission of their parents or guardians, as set forth in §46.408.

Level 2 Risk Justification:

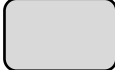

Level 3 Research involving greater than minimal risk and NO prospect of direct benefit to individual participants, but likely to yield generalizable knowledge about the participant’s condition or disorder.

IF CHILDREN ARE ENROLLED: All 4 of the following conditions must be met *for children* in order to qualify for risk Category 3:

- The risk represents a minor increase over minimal risk;
- The intervention or procedure presents experiences to participants that are reasonably commensurate with those inherent in their actual or expected medical, dental, psychological, social, or educational situations;
- The intervention of procedure is likely to yield generalizable knowledge about the participants’ disorder or condition which is of vital importance for the understanding or amelioration of the participants’ disorder or condition; and
- Adequate provisions are made for soliciting the assent of the children and permission of their parents or guardians, as set forth in §46.408.

Level 3 Risk Justification:
