Cyberinfrastructure:

Computing, Networking and Support for Research

Professional and Academic Development (PAD) Seminar Series
Friday, March 22, 2013 – 1:00 to 2:30 PM
Margherio Conference Center -- Note Site Change!

SAVE THE DATE!

Discussion Topics:

- **Free** computing resources available to researchers
- Services to help researchers devote more time to their research and less time to building and maintaining computing systems
- WSU's High Performance Computing (HPC) Grid for research and courses in parallel computing
- WSU's Science DMZ, a 10 gbs network dedicated to researchers for movement of large datasets across campus, nationally and globally
- IT consulting services to help researchers tap the power of the Grid
- Server co-location services in C&IT's secure environment
- Hosting services -- virtual machines in C&IT's VM environment
- Grant application support
- Grant partnerships

Moderator: Patrick Gossman, Deputy CIO for Research
Panelists:

David Cinabro, Professor, Physics

Andres Cisneros, Professor, Chemistry

Aragorn Steiger, Senior Systems Software Engineer, C&IT

Michael Thompson, Lead Systems Software Engineer, C&IT
