

## COVID-19 Policy Matrix

Following is brief summary of flexibilities allowed by our primary sponsors, with links to the specific published guidance.

For all other sponsor guidance, refer to the detailed and updated “[Guidance from Sponsors and Research Partners Regarding the Impact of COVID-19 on Research](#)”

Process	SPA	NIH	NSF	DoD	DoE	USAMRAA
<b>Submission</b>	Please notify your SPA Grant & Contract Officer of impending submissions. <a href="https://research.wayne.edu/spa/proposals/contact">https://research.wayne.edu/spa/proposals/contact</a>	All grant applications submitted late for due dates between March 9, 2020, and May 1, 2020, will be accepted through May 1, 2020. <a href="https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-091.html">https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-091.html</a>	Proposers are advised that NSF will be extending the deadline date for solicitations. Additional solicitations may be added to the list, proposers are strongly encouraged to check NSF’s website regularly. Deadlines for published program descriptions, announcements, solicitations that do not appear on the link remain unchanged. <a href="https://www.nsf.gov/bfa/dias/policy/covid19/covid19_deadline_s.pdf">https://www.nsf.gov/bfa/dias/policy/covid19/covid19_deadline_s.pdf</a>	Please contact the DoD program officer and grants manager for the funding opportunity in question to seek an application deadline extension. Proposers are encouraged to monitor grants.gov to see if an extension has been posted.	Deadlines for submitting pre-applications, letters of intent, or applications may be extended by no more than fourteen (14) days from the applicable due date. Please contact the Program Manager identified in the funding opportunity announcement (FOA) or DOE Laboratory Announcement under which the pre-application, letter of intent, or application is being submitted prior to the applicable due date.	There are currently no plans to modify existing application deadline dates but please continue to monitor Grants.gov for any potential change(s) to an application deadline.
<b>Progress Reports</b>	Please contact your SPA Grant & Contract Officer if you have questions. <a href="https://research.wayne.edu/spa/proposals/contact">https://research.wayne.edu/spa/proposals/contact</a>  RPPR and Final Invention Statements (NIH) should be routed to <a href="#">Denise Reid, Associate Director</a>	RPPRs Due in the next 90 days: Recipients should document COVID-19 effects and state that research outcomes are not available at this time. Recipients should outline when they believe they will be able to include details related to the disruptions to the research efforts.  NIH will accept these late reports but will delay issuing grant awards until the reports are received and accepted by the appropriate Institute or Center (IC)	NSF has extended the due date for submission of all annual project reports due between March 1 and April 30, 2020, by 30 days. These project reports must continue to be submitted via Research.gov. Recipients are reminded that NSF cannot make any new award or supplement any existing award, if the principal investigator (PIs) or any co-PI(s) has an overdue annual project report; therefore, it is vital that annual reports are submitted by the revised due date. <a href="https://www.nsf.gov/bfa/dias/policy/covid19/covid19_nsfombi_mplementation.pdf">https://www.nsf.gov/bfa/dias/policy/covid19/covid19_nsfombi_mplementation.pdf</a>	Consistent with OMB Memorandum M-20-17, the DOD will allow grantees to delay submission of financial, performance and other reports on currently-active award accounts up to three months beyond the normal due date.  For any other deliverables related to research awards, please contact the DOD grants manager and/or program manager for award specific guidance.	Progress reports for grants, cooperative agreements, and interagency awards may be submitted through the PAMS website at <a href="https://pamspublic.science.energy.gov">https://pamspublic.science.energy.gov</a> as soon as practicable. Note that delays in submitting progress reports may cause unavoidable delays in continuation funding. PIs from DOE National Laboratories should contact their program manager if there will be a delay in submitting progress reports.	Recipients may delay submission of financial, performance and other reports on currently active award accounts up to three (3) months beyond the normal due date. Contact the Granting Officer and Grants Officer’s Representative (GOR) for extensions on other milestones and deliverables required in the terms and conditions of the award. If warranted, the same three-month extension may be granted. Recipients may continue to invoice for payment of Federal funds without timely submission of reports. Reports must be submitted at the end of the postponed period. Additional extensions require prior approval of the GO.
<b>Financial Reports</b>	Please contact <a href="#">Jerry MacDonald, Associate Director</a> , if you have questions		NSF does not require recipients to submit Federal Financial Reports for each award as financial data is extracted from NSF’s Award Cash Management Service.	See above		See above
<b>No-Cost Extension</b>	Please contact your SPA Grant & Contract Officer to initiate request.
